COMPANY PROFILE

Muscat Golden Services LLC was first established in 1993 as a Cold Storage and Reefer Truck Body Fabricator and Manufacturer.

About

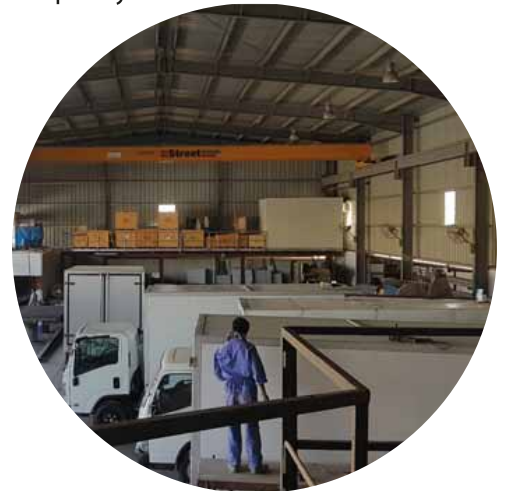

From humble beginnings and with a steely determination, keeping quality and impeccable service at its core, today, Muscat Golden Services LLC proudly stands as a pioneer and leader in the Manufacturing & Supply of Cold Stores and Reefer Truck Bodies in the Sultanate of Oman, serving the nation for the last 25 years, serving a wide range of satisfied clientele across the country.

We, at Muscat Golden Services, continue to redefine and develop our products & services by offering the best value to our Clients.

Our Success and growth since the past 25 years is owed to our continuous dedication and strive towards achieving our goals of providing excellent Cold Storage Solutions as well as maintaining an exemplary service & maintenance record which is reflected in the continuous loyalty of our esteemed clients through the years. We take pride in meeting the requirements of our clients and providing them on-time cold storage solutions. By using the latest technology, design tools available and combined with a highly skilled, dedicated and vastly experienced workforce, we manage to deliver the best durable products as well as services on-time added with the essence of good quality control methods which ensure long life and give the best value to the customers.

Our Mission Statement:

Our aim is to provide our clients with the best, effective and On-Time Cold Storage solutions along with exemplary quality service & maintenance through our highly skilled and dedicated work force. We would ensure that our clients not only find satisfaction in our work but also be satisfied in the rate of return that our products bring them for their businesses.

Our Core Business:

- ◆ Manufacturing, Supply & Installation of Cold Stores, Walk-in Coolers & Freezer Rooms, Blast Freezers, Skid Base Mounted Cold Rooms, Dry/ Insulated Rooms (for dry materials storage).
- ◆ Repairs and Maintenance of Cold Stores and Cooling Units.
- ◆ Fabrication, Supply and Commissioning of Reefer Trucks & Dry / Insulated Trucks.
- ◆ All Types of Repairs and Maintenance of Reefer Truck Bodies.

REFRIGERATED TRUCK BODIES/DRY INSULATED BODIES

MGS Reefer truck bodies have proven over the years to consistently meet the most challenging temperature requirements. They are relied upon daily in the food service industry in both the areas of fresh and frozen haul.

We give utmost care to quality which is our top priority.

Body dimensions of heavy duty reefer truck we fabricate:

BODY	LENGTH x WIDTH x HIEGHT(Ht)
3.5 TON	4400mm** x 2200mm x 2140mm
4 TON	5100mm** x 2200mm x 2140mm
7 TON	6300mm** x 2400mm x 2400mm
10 TON	7300mm** x 2500mm x 2400mm
12 TON	7500mm** x 2600mm x 2500mm
18 TON	8200mm** x 2600mm x 2500mm

** Additional sub-chassis extension can be provided as per customer requirements and ROP approval.

TECHNICAL SPECIFICATIONS OF HEAVY DUTY REEFER TRUCK BODY

- ◆ We use panels made up of 100mm/150mm (depending on customer requirement) thick Poly Urethane Foam (PUF) insulated sandwich type single panels having density of 42 Kg/m³. These panels have long life compared to others.
- ◆ The external and internal claddings of the panels will be 0.7 mm thick, Anti Corrosion treated white colour GALVANIZED IRON (G.I) [OR] 2mm Thick GLASS RIENFORCED POLYESTER (GRP) sheets depending upon the requirements of the customer.

PRE-PAINTED GALVANIZED IRON (G.I) CLADDING

GLASS REINFORCED POLYESTER (GRP) CLADDING

ADDITIONAL FEATURES

MOVABLE PARTITION

- ◆ Movable Partition is made up of 45mm thick insulated Panels, movable upto 2 meters with hanging and lifting facility provided along with Thermostat and Exhaust Fan to maintain the chilled temperature.
- ◆ The main advantage of the movable partition is that both frozen and chilled goods can be transported in the same truck without compromising the quality of goods stored
- ◆ This partition can be moved vertically or hung horizontally depending upon the quantity of frozen or chilled goods to be transported.

SHELVINGS

- ◆ We offer shelving's made of superior quality of Aluminium/stainless steel according to the required sizes and specifications given by the customer.
- ◆ Can be used to transport material efficiently in an organized way especially used for transportation of cartons of chocolates, biscuit products etc.

MEAT HANGING HOOKS

- ◆ We use best Quality Anodized Aluminum railings along with SS Chain brackets and SS Double Meat Hanging Hooks distributed evenly as per requirement of customer.
- ◆ Additional reinforcement is added in the ceiling panel for extra strength so as to efficiently carry load of the hooks provided.

INSULATED REFRIGERATED MINI DELIVERY VAN & PICK-UP BODIES

MINI DELIVERY VAN

PICK-UPS

BODY	LENGTH x WIDTH x HIEGHT(Ht)
Mini-Delivery Van	3500mm x 1700mm x 1500 mm
Pick-up	2300mm x 1800mm x 1600 mm

- ◆ For chiller vans we use panels made up of 80mm thick Poly Urethane Foam (PUF) insulated sandwich type single panels having density of 42 Kg/m³.
- ◆ For freezer vans we use panels made up of 100mm thick Poly Urethane Foam (PUF) insulated sandwich type single panels having density of 42 Kg/m³.
- ◆ For pick-up bodies we use 80mm or 100mm thick PUF insulated panels along with heavy duty fittings and Accessories.
- ◆ MGS van & pick-up bodies are designed to use utmost space to maximize the food storage capability with efficient cooling capacity.
- ◆ Bodies have longer shelf life.

TYPES OF FLOORING

1 - ALUMINIUM T- PROFILE

- ◆ Better air-circulation
- ◆ Damage is minimum due to its strength
- ◆ Pallet usage is eliminated.

2 - ALUMINIUM CHEQUERED SHEET

- ◆ Skid resistant
- ◆ Non-corrosive
- ◆ Welded Corners providing good prevention for moisture/ water leakage

3 - GLASS-REINFORCED POLYESTER

- ◆ Water-Proofed
- ◆ Durable
- ◆ Easy to Clean
- ◆ Light weight
- ◆ Widely used for transport of Fresh Fish and Meat items.

COLD ROOMS/DRY STORAGE ROOMS

MGS Cold rooms provide maximum storage utilization along with desired optimum temperature.

Cold Rooms Featuring Automatic Sliding Doors System

◆ Services provided:

- Dry storage insulated Rooms
- Freezer Room
- Chiller Room
- Skid Base Mounted freezer & chiller room
- Insulated Office/Kitchen-Porta Cabins

- ◆ Thermally insulated panels made up of 100mm (depending on customer requirement) thick Poly Urethane Foam (PUF) insulated sandwich type single panels having density of 42 Kg/m³ are used.

- ◆ Supply, Installation & Commissioning of the cooling units (Condensing Unit and Evaporator Unit). The Units are skillfully fitted with copper piping, Electronic Control panel boards for each room and expansion valves.

SKID MOUNTED COLD ROOMS

SKID MOUNTED COLD ROOMS

KITCHEN INSULATED PORTA CABINS

- ◆ MGS Skid Mounted Rooms are designed specially with high quality 'I' Beams with hole openings for swift lifting purposes
- ◆ Main advantage of skid mounted rooms are that the rooms can be transported easily from one place to another depending upon the need of the customer.
